

Exam Results – Summer 2025

We are extremely proud of the achievements of our students in the summer examinations. This year, our students demonstrated remarkable perseverance and dedication, securing excellent results across a wide range of qualifications. One of our students achieved outstanding grades 5 and 6 in GCSE English, Maths, and Art—an incredible accomplishment! The rest of our cohort successfully completed their Functional Skills qualifications in English and Maths, demonstrating their growing confidence and skills. Additionally, year 11 students earned the Entry Level Certificate (ELC) Science and Food Technology qualifications, highlighting their strong foundation in practical subjects. Four of our students also gained ASDAN qualifications, showcasing their progress in personal development and vocational learning. We are thrilled with these results, which reflect both the hard work of our students and the ongoing support they receive from our dedicated staff. These achievements set a positive path for the next stage of their educational journey.

The breakdown of entries are as follows:

Qualification	Total	Year 11	Year 12-13
GCSE English	1	1	
GCSE Maths	1	1	
GCSE Art	1	1	
Functional Skills English	8	4	4
Functional skills maths	8	4	4
